

ADDENDUM A

METADATA FEED

This Addendum is hereby incorporated into the IEEE Online Products License Agreement between Council of Prairie and Pacific University Libraries (COPPUL) ("Licensee") and the Institute of Electrical and Electronics Engineers, Inc. ("IEEE") dated November 27, 2013. This Addendum shall be in effect as long as there is an active IEL subscription. The parties hereby agree to the following:

1. Definitions.

- a. "Abstract" means a brief summary of an Article.
- b. "Article" means an individual document from an IEEE Publication.
- c. "Index Entry" means bibliographic data concerning an Article, including: title, author name, author affiliation, IEEE Publication name, volume, issue and page number.
- d. "IEEE Publications" means IEEE journals, transactions, magazine, conference proceedings, standards and IET journals and conference proceedings made available by IEEE as part of the IEEE/IET Electronic Library (IEL), but specifically excluding materials from or consisting of IEEE eBooks and IEEE eLearning Library.
- e. "IEEE Content" means, collectively, Articles, Abstracts, Index Entries and IEEE Publications, as well as any derivative works created there from.
- f. "Reference" means bibliographical information concerning sources cited within an Article.
- g. "Authorized Users" means (a) persons affiliated with Licensee as students, faculty or employees; (b) authorized persons physically present in Licensee's library facilities; and (c) such other persons as IEEE may, at the request of Licensee and in IEEE's sole discretion, authorize in writing to access the Licensed Products.

2. License Grant.

IEEE shall provide Licensee with the initial feed to Abstracts and Index Entries in static form via USB drive or comparable media for Articles in IEEE Publications as part of the IEEE/IET Electronic Library (IEL) subscription. For ongoing updates of Abstracts and Index Entries, IEEE shall provide Licensee with access in electronic form for Articles in IEEE Publications. IEEE shall make reasonable efforts to provide such IEEE Content to Licensee in electronic form (XML format, as applicable) via FTP on a weekly basis and in accordance with IEEE's publishing schedule to be delivered in XML format. IEEE grants Licensee a non-exclusive, non-transferrable license to use these Abstracts and Index Entries pursuant to the terms and conditions of this Agreement:

3. Terms and Conditions.

- (1) Licensee shall integrate IEEE Content within Licensee databases only for the sole purpose to create its own index terms based upon IEEE Content.
- (2) Except as expressly permitted under this Agreement, Licensee shall not reproduce, copy, distribute, publish, transmit, enter or caused to be stored in any computing or data storage device or procure or permit the reproduction, copying, making of derivative works, transmissions distribution or publication, or entering or storing on any computing or data storage device of any Article or IEEE Publication.
- (3) Using IEEE data, Licensee agrees to create an index and concept retrieval capability viewable only to Authorized Users for the purpose of retrieval of the full-text document. The content for the full text of the publication will be provided by IEEE Xplore and retrieved on a per search basis by the IEEE IEL

customer only after user has been successfully authenticated. A hyperlink to the relevant full text within IEEE Xplore should point directly to the URL <http://ieeexplore.ieee.org>.

(4) Under no circumstances may Licensee include the full text of any Article within Licensee databases.

(5) To the extent that any IEEE Content includes INSPEC keywords or References, Licensee shall have no rights to use of such INSPEC keywords or References.

(6) Licensee may not assign this Addendum, or sublicense, delegate any right or duty hereunder, by operation of law or otherwise.
