# ASTM Learning Center Modules

New online learning center provides you cement and concrete training

**Staff will train at their own pace using:**

- Expert hands-on video demonstrations
- Testing to monitor employee progress
- Step-by-step outlines of procedures
- Glossary of essential terms

**Construction Materials Technician Series**

QA/QC technicians will advance their skills using industry leading, self-guided, computer-based training.

The series is ideal for those preparing to become certified testing technicians through the American Concrete Institute (ACI), National Institute for Certification in Engineering Technologies (NICET), or a state agency such as the Department of Transportation.

Advanced features enable managers to develop learning plans, run reports, track learning progress and measure compliance.

**Modules Cover**

- Concrete Field Testing
- Concrete Strength Testing
- Aggregate Testing Training
- Aggregate Base Testing
- Cement Testing
- Self-Consolidating Concrete Testing

**ASTM STANDARDS INCLUDED:**
