COVID-19: Vancouver Island, BC (Central & North)

Collected by: Vancouver Island University

Archived since: Mar, 2020

Description: In March 2020 the Canadian Web Archiving Coalition (CWAC) stated: "The deadly flu outbreak of 1918-19 is often called the 'forgotten pandemic.' Our responsibility now is to ensure the lessons of COVID-19 are not forgotten. Our collective efforts to capture and preserve the essential online elements of this unprecedented event are critical." (CARL-ABRC). The COVID-19: Vancouver Island, BC (Central & North) Web Archive reflects community experiences and responses to the pandemic in the region served by Vancouver Island University, documenting and supporting diverse aspects of scholarly inquiry, creativity, and community life. The Web Archive is intended to provide a body of information that will support scholarship,

- "...community experiences and responses to the pandemic in the region served by Vancouver Island University, including and supporting diverse aspects of scholarly inquiry, creativity, and community life."

- "...to support current and future scholars of the region"

Scholarly Communications & Web Archives

Web archiving relies on / intersects with:

      Collections

      Metadata

      Repositories

      Research Data Management

      Digitization

      Digital Preservation

      Information Rights

situating web archives so as to "contribute to an understanding of both the individual decisions that shape a collection through the web archiving process and their situated nature within specific and evolving organizational and technical contexts" (Maemura et al., 2018).

Description ❓	The COVID-19: Vancouver Island, BC (Central & North) Web Archive seeks to reflect community experiences and responses to the pandemic in the region served by Vancouver Island University. The Web Archive is intended to provide a body of information that will support scholarship, creativity, and study, and these data files are derived from archived content at the one-year mark of the pandemic. This project was supported by VIU's Special Funding for COVID-19 research projects and carried out in coordination with the University of Victoria's COVID-19 Collection and the Canadian Web Archiving Coalition.
